455 South Broadway,  
Tarrytown, NY 10591

REGISTER TODAY | [bostonchildrens.org/bchpadvancesNY2018](http://bostonchildrens.org/bchpadvancesNY2018)

### About the course

Pediatric care is changing and improving all the time, and it can be difficult for doctors, nurses and other members of the healthcare team to stay on top of newest practices, treatments and approaches. Please join us for this complementary course on Wednesday April 25, 2018 and review innovations and advances in pediatrics that can lead to better outcomes and improve the quality of care for the children and families for which we provide care.

This course addresses these challenges. Upon completion of this course, participants will be able to:

- evaluate recent updates in basic science and clinical advances in pediatrics
- determine the bench to bedside applications of recent scientific advances to the clinical care of children
- assess the added value of new diagnostic and screening tests, specifically their sensitivity, specificity and predictive values, both positive and negative

### Target audience

- Physicians
- Nurses
- Nurse practitioners
- Physician assistants

### Course directors

#### Karen Gruskin, MD

*Medical Director, Hospital Partnerships, Boston Children's Hospital; Attending Physician, Division of Emergency Medicine, Boston Children's Hospital; Assistant in Medicine, Harvard University School of Medicine*
